

## FARMERS TO PLANT USUAL SIZE CROPS

No Curtailment of Agricultural  
Production Threatened, Says  
Secretary Wallace.

No concerted movement among the farmers of the country to curtail planting for the coming season is seen in reports to the Department of Agriculture, Secretary of Agriculture Wallace announced today. Scarcity of labor and the desire of some farmers to plant overworked land in grass will decrease the size of the land's crops, however, the Secretary added.

"The situation is one where every farmer will be his own guide in the matter of planting this year," said the Secretary. "The farmer does not have the facilities of organization which would make a concerted movement possible. The small farmer will plant all that he and his family can handle."

"It does not pay to have a farm lay idle. More harm can be done by permitting a farm to grow in weeds than in any other way. The small farmer cannot afford to hire labor this year, and will put in grass all the land he and his family cannot care for."

"With the big farmer the situation is different. For several years pasture land has been planted in corn and other crops because of the extraordinary yield from the fertile soil. The well-to-do farmer will permit this land to grow in pasture again that it might regain its former fertility state."

"For five years farm land has been used intensively. The present over-supply will permit the man who can afford it to give his land a chance to regain its former fertility. This may cause a reduction in the size of the crop, but it will have no ill effects on the community at large."

"There will be a decided falling off in the planting of wheat, but other crops will be planted in its stead. The land will not remain idle."

The new Secretary of Agriculture did not look pessimistically to the future for either the farmer or the consumer.

## CLAIMS U. S. RIGHT IN ASIA OIL FIELDS

Lenroot Tells City Club America  
Will Fight Allied Grab  
in Mesopotamia.

The United States has a one-fifth undivided right to the Mesopotamian oil fields and the Island of Yab, and it will not stand by complacently and allow England, France and Japan to beat her out of her claim, according to Senator Irvine L. Lenroot of Wisconsin.

In an address last night before the City Club membership at the clubhouse, Farragut Square, Senator Lenroot lauded the recent Colby note on League of Nations mandates, declaring that it showed convincingly that the United States is no longer able to isolate itself and take no interest in the peace of the world.

"The United States," he said, "will not permit the other great powers to seize conquered territory and exploit it for themselves to the defeat of the business of this country. Within twenty-five years the country having the greatest supply of oil will control the mercantile marine of the world. And within twenty-five years the supply of this country will be practically exhausted."

**Woman Dies at Age of 106.**  
ELKINS, W. Va., March 17.—"Aunt" Eliza Summerfield, the oldest woman in Randolph county, is dead at the home of her son, Solomon Summerfield, in Laurel Fork district. Interment was at Middle Mountain. She was 106 years old. She cast her first vote last fall at Wymer, depositing a straight Democratic ticket.

## CONSTIPATION GONE; SUFFERED 8 YEARS

Found right road to health.  
Gained 20 pounds

"My wife has been troubled for eight years with constipation. She has tried almost everything on the market and has never received any benefit from any of them. In fact, they have done more harm than good."

"She overheard one lady telling another what Milk's Emulsion had done for her. She got a bottle and has continued its use since. She weighed 97 pounds at that time, and after taking five bottles she now weighs 117 pounds; gained 20 pounds on five large bottles; besides she is feeling fine."

"If all the people suffering from constipation knew what Milk's Emulsion would do for them, you would have to enlarge your plant."—Leonard McKee, 29 Eye St. N. E., Washington, D. C.

Hundreds have endured torture for years and then found that Milk's Emulsion gives blessed relief and real, lasting benefit. It costs nothing to try.

Milk's Emulsion is a pleasant, nutritive food and a corrective medicine. It restores healthy, natural bowel action, doing away with all need of pills and physics. It promotes appetite and quickly puts the digestive organs in shape to assimilate food. As a builder of flesh and strength, Milk's Emulsion is strongly recommended to those whose sickness has weakened, and is a powerful aid in restoring and repairing the effects of wasting diseases.

This is the only solid emulsion made, and so palatable that it is eaten with spoon like ice cream.

No matter how severe your case, you are urged to try Milk's Emulsion under this guarantee—Take six bottles home with you, use it according to directions and if not satisfied with the results, your money will be promptly refunded. Price, 75c and \$1.50 per bottle. The Milk's Emulsion Co., Terre Haute, Ind. Sold by Peoples Drug Stores and all first-class drug stores.
